PROFESSIONAL SUMMARY

Frontend Developer and UI/UX enthusiast with hands-on experience in designing responsive web interfaces using Figma and developing frontend applications using HTML, CSS, JavaScript, and React.js. Skilled in creating user-friendly layouts, dashboard interfaces, responsive web designs, and modern UI structures with strong understanding of frontend development concepts and responsive design principles.

PROFESSIONAL SKILLS

UI/UX Design: Figma, Wireframing, Responsive Design, Dashboard UI Design, Typography, Color Theory, Layout Design, Mobile-First Design
Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.js
Backend: Node.js, Express.js
Database: MongoDB, MySQL
Programming: Python (Basics)
Data Analytics: Excel, Power BI
Tools: VS Code, Git/GitHub,
Soft Skills: Communication, Teamwork, Presentation, Problem-Solving, Attention to Detail, Time Management
Languages: English, Malayalam

PROJECTS

Student Management Dashboard UI May 2026
Personal Project

- Designed a responsive student dashboard interface using Figma featuring analytics cards, sidebar navigation, attendance tracking, and profile management layouts.
- Created dashboard screens with modern UI structure, responsive layouts, consistent spacing, and typography principles.
- Focused on user-friendly dashboard workflows, visual hierarchy, and mobile-first responsive design concepts.

Learner's World Responsive Login UI April 2026
Personal Project

- Designed a responsive login page UI using Figma focusing on clean layout structure, typography, spacing, and mobile responsiveness.
- Created user-friendly authentication screen layouts with responsive desktop and mobile interface designs.
- Focused on modern UI styling principles including alignment, visual hierarchy, and responsive layout design.

OTT Streaming Platform February 2026 - March 2026
Associated with MashupStack

- Developed a full-stack web application enabling users to browse, stream, and manage movies with secure user authentication.
- Designed user and admin interfaces to manage movies, users, watchlists, and activity tracking features.

Recipe Sharing Platform

January 2026 - February 2026

Associated with MashupStack

- Built a web application for creating, managing, and exploring recipes with user authentication and structured data handling.
- Implemented user-friendly interfaces and features for adding, editing, and viewing recipes along with admin-based content control.

URL Shortener

January 2026

Associated with MashupStack

- Developed a React-based application to generate and manage shortened URLs with a clean and responsive user interface.
- Implemented features like authentication, search, pagination, and a limit of 5 URLs per user with edit and delete functionality.

Medical Store Management System

December 2025

Associated with MashupStack

- Built an Express.js-based application for managing medicine inventory with features to add, edit, delete, and track stock.
- Implemented user authentication, search functionality, pagination, and restricted users to a maximum of 5 medicine entries.

Design of Coumarin-Conjugated Nanoliposomes to Target Thrombus and their Applications in Thrombolytic Therapy

December 2023 - May 2024

Final Year UG Project

- Conducted in-silico analysis and synthesized Coumarin-Conjugated Nanoliposomes using FT-IR and DLS for targeted drug delivery.
- Evaluated anticoagulant, antioxidant, and cytotoxic properties using biological assays including the Allium Cepa model.

PROFESSIONAL EXPERIENCE

Faculty

September 2025 - Present

Viskool, Trivandrum

- Delivered one-on-one and group tutoring sessions, simplifying complex concepts for better understanding.
- Enhanced communication, presentation, and mentoring skills through interactive teaching.

Full-Stack Web Developer-Intern

August 2025 - March 2026

MashupStack, Kallampally, Sreekariyam

- Developed hands-on experience in MERN stack by building responsive user interfaces and backend functionalities using React.js, Node.js, Express.js, and MongoDB.
- Worked on small tasks, exercises, and practice projects to strengthen understanding of full-stack development workflows.

Research Intern

May 2023

Central Tuber Crops Research Institute, ICAR-CTCRI, Sreekariyam

- Assisted in the Molecular Study of Plant DNA and Instrumentation under guidance of Dr. Mohan C, Principal Scientist.
- Gained proficiency in laboratory procedures including DNA isolation, extraction, and visualization.

EDUCATION

Bachelor of Technology in Biotechnology and Biochemical Engineering <i>Sree Chitra Thirunal College of Engineering, Trivandrum</i>	November 2020 - July 2024 <i>CGPA: 8.58</i>
HSC, Class XII <i>Government Vocational Higher Secondary School, Vellanad, Trivandrum</i>	2018 - 2020 <i>Grade: 91%</i>
Matriculation, Class X <i>Government Vocational Higher Secondary School, Vellanad, Trivandrum</i>	2017 - 2018 <i>Grade: 92%</i>

ACHIEVEMENTS / PRESENTATIONS

JavaScript Essentials <i>Infosys Springboard</i>	December 2025
RIST 2024 - International Conference: Oral Presentation <i>Holy Grace Academy of Engineering, Thrissur</i>	April 2024
CHEMCON 2023 - International Conference: Oral Presentation <i>Heritage Institute of Technology, Kolkata</i>	December 2023
